NURSE CLINICIAN II ON MEDICAL/CARDIAC INTENSIVE CARE UNITS AND INTERVENTIONAL UNIT OBJECTIVE I am a Registered Nurse applying for the Doctor of Nursing Practice (DNP) concentration in nurse anesthesia (CRNA) with strengths in high-quality collaborative interdisciplinary patient care, technical procedures, and strong patient-family communication. I am aiming to receive exceptional training and invaluable learning experiences from your institution's School of Anesthesia. I wish to challenge my flexibility during critical situations while working under fast-paced emergency situations. With my BSN educational degree from Loyola University Chicago and estimated 4 years experience in the MICU (2 years as a nursing care technician and working as a MICU RN since September 2013), I believe I am highly qualified and am seeking an opportunity to be and well-trained to become an exceptional Nurse Anesthetist from a top-ranked institution.

Professional Summary Two solid years of experience in the Medical/Cardiac/Interventional ICU at Advocate Lutheran General Hospital. Provide compassionate care to critically-ill patients suffering from injuries or debilitating medical conditions. Observe behavior and symptoms and report changes to on-call physicians. Competently trained in telemetry monitoring, ventilator management, titration of high-potency vasoactive drugs, CRRT therapy, Hypothermia therapy, TPA management, IABP management. Managed life support equipment and IV administration of fluids and medications. Respond to cardiac and respiratory code situations per current ACLS guidelines. Proactively learned new procedures and treatment protocols. Educate families about patient conditions and provide support as needed. Competent in providing end-of-life care to palliative and hospice patients. Frequently acts as preceptor to nursing students in critical-care rotations. Maintains strong reputation for achieving high levels of patient satisfaction. Device Competencies & Proficiencies: telemetry monitoring, ventilator management, CRRT/CVVH therapy, hypothermia therapy, TPA management, Intra-Aortic Balloon Pump management, Flow Trac device (Cardiac Output, Cardiac Index monitoring device), Impella, Pacemaker and Transcutaneous Pacemaker management, Rapid Infusers, Swan-Ganz Catheter, Bladder Pressure, Potent IV Medications including Vasopressor and Sedation Drugs (Including, but not limited to: Neo-Syneprine, Levophed, Vasopressin, Epinephrine, Dopamine, Dobutamine, Propofol, Fentanyl, Midazolam, Lorazepam, Morphine, Nitroglycerine, Nipride, Nimblex) Licenses and Certifications Registered Nurse: State of Illinois: August 2013-Present Advance Cardiac Life Support (ACLS) Certification: 2014-Present Basic Life Support (BLS) Certification: 2014-Present Pediatric Life Support (PALS) Certification: 2015-Present NIHSS Certified (September 2013-Present) Skill Highlights Life support IV administration Medication administration Therapy and treatment Procedural assistance Hourly Rounding HIPPA compliance Reporting and documentation Computer charting Diagnostic assessments Vital signs Professional Experience 09/2013 to Current Nurse Clinician II on Medical/Cardiac Intensive Care Units and Interventional Unit Company Name ■ City , State 08/2014 to Current Dancer for Chicago Luvabulls Company Name ■ City , State Lead, cheer, applause, support the Chicago Bulls during basketball games held throughout the season at the United Center.
