ENGINEERING TECHNICIAN II Summary My

goal is to become associated with a company where I can utilize my skills and gain further experience while enhancing the company's productivity and reputation. Highlights
Excellent communication techniques Engineering standards expert Complex problem solver
Advanced critical thinking Microsoft Excel, Project and Visio Engineering operational functions
Multidisciplinary exposure Project management Advanced engineering knowledge Troubleshooting
specialist Initiative to work independently Strategic thinker Quality inspection professional Strong
collaborative skills Document management testing Patient and diligent MS Office proficiency
Google Documents 5S expert Safety member Validation process specialist Accomplishments 2006
- Global Engineering nominee for Back Side
Transfer/Lamination Technology. 2013 - Nominations, Global Engineering, Gathering Rx laboratory
HC data and finding global problem and giving solution for the US Rx labs. 2015 - Global
Engineering winner for PC Nidek
Tinting lenses to Support Sun Business. 2016 - Global Engineering Winner, Global Water Savings
primarily on the Hard Coating Machines. Experience Engineering Technician II 02/2012 to Current
Company Name City , State Initiated statistical analysis project that resulted in sound
recommendations adopted by entire RX Labs. Spearheaded documentation of classified reports.
Managed numerous projects simultaneously that helped the company make good sales for the
certain products. Collaborated with engineers and project managers on Water Savings, Photo
chromic and Nidek tinting projects. Supervision of the photo chromic production. Maintained and
managed network environment including troubleshooting, filing and archiving. Prepared accurate
specifications for photo chromic lenses production . Developed and organized records and
maintenance reports for increased efficiency. Applied engineering principles to develop and operate
Hard Coating and data processing systems. Executed root cause analysis to improve yield and
reliability. Carefully organized, analyzed and prepared technical data reports to ensure proper
workflow and productivity for the Rx labs. Maintained safety by verifying compliance and assuring
proper Global Engineering testing. Produced and maintained accurate design documentation for
HC, spin coat and photo-chromic processes. Traveling to Rx laboratories inside and outside of US
and work and leading in a pilot line environment. Organizing pilots line activities and setting them
up. Training personnel as required. Documenting and reporting on pilot line activities. HMC HC
Laboratory Assistant III 02/2005 to 02/2009 Company Name City , State Working with engineers to
establish coating formulations and processes for the HC Machines and Lamination Machines.
Responsibility for blending procedures, mixing, analyzing, and test coating formations utilizing
commercial and R&D; chemicals. Setting up lamination (Back Side Transfer) machines thru the Rx
labs. Training the laboratory staff on the same, and giving technical support to the labs. Performing
and Documenting the industrialization of new products and processes for application of coating on
Rx lenses. Establishing and maintaining lens hard coating processes. Documenting and reporting
on project progress. Analyzing the chemical properties of hard coatings. Working Independently.
Hard Coating Technician 10/2003 to 02/2005 Company Name City , State Working with the
Supervisor, planing and scheduling the daily operations of the Dip/Dip process. Insuring the proper
training of all assigned personnel according to the latest SOP's and work instructions. Performing a
variety of more complex technical duties relating to the coating machine support; to include titration
of all chemicals, machine troubleshooting (both electro-mechanical and chemical). Planing and
scheduling the daily operation of the Dip/Dip process, spin processes. Communicating with
incoming/outgoing tech for any specific problems or upcoming changes. Performing machine
maintenance and troubleshooting at start of shift, verifying that all levels are correct and the system
is ready to run. Maintaining an accurate process log book and make all necessary testings and
adjustments and record results in the proper log. Surfacing lab technician 01/2003 to 02/2003
Company Name City , State Handling all types of lenses that travel through the Surfacing
Department while following all applicable procedures in an Optical Laboratory setting. Blocking of
lenses for processing. Final Inspection overall cosmetic appearance of Rx eye-wear. Ensuring
complete accuracy of specific Rx requirements. Monogram Operator 06/1999 to 01/2003 Company
Name City , State Setup, operate and maintain various monogram sawing machines. Education
ESOL 2010 Saint Petersburg College City , State , USA 2009-2010 ESOL Program 4.00 GPA
Bachelor of Science : Engineering Management 2020 Arizona State University City , State , USA

BSE Engineering Management Working towards my Bachelors degree with the major GPA as 3.45 Expected to graduate spring of 2020. Associate of Science : ■Chemical Technician 1993 1989-1993 Chemical and Textile School Sanski Most, YU City , State , Yugoslavia Technician for the Production of Nonmetal and Construction Materials, IV Level-Chemical Engineering> 3.1 GPA Trainings Training Certificate of competition, Resource Conservation and Recovery Act (RCRA) Internal Auditor for engineering group. Laboratory University Course Efficient Communication Training Global Engineering Customer Orientation Training Project Management Training 14h, How to Capture Customer Requirements & Develop Project Scope Skills Calibration, Chemical Engineering technician, documentation, Engineering Management, equipment inventory, inspection, Maintain inventory, Materials, processes, safety, SOP, staffing, Supervision, technical support, Technician, troubleshooting, validations. Interests Playing basketball, cooking, gardening, and spending time with my children.
