TEACHER Profile I am a highly qualified K-12 Vocal Music Teacher holding a BS in Music Education from Kansas State University and Sterling College. (1999) I believe in building a solid foundation in the formative years and helping students find many different ways to experience music. I lead them to develop passion in music and performance that leads them to continue in Music in Middle, High School and beyond. Providing multiple delivery methods in teaching, assures each student will experience, learn and retain key music knowledge in the way that they learn best. Using Brain Research Strategies, coupled with Multiple Intelligences, HOTS, and Explicit Instruction, I have found a way to teach students Music through all Core areas. Music is a Universal Language. Regardless of gender or race, music looks the same on paper but is experienced in numerous ways through Culture. I am passionate about teaching! Areas of Expertise Trained in Explicit Instruction Trained in HOTS Instruction 4 Years MTSS Leadership Team Corporate Trainer Customer Service Manager Quality Control Specialist Corporate Scheduler Professional Experience 08/2002 to Current Teacher Company Name ■ City , State Taught K-12 Vocal Music and 9-12 Band Assistant.
